Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Information 30 September 2021

# Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 September 2021 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

#### 2 Basis of preparation

# a) Statement of compliance

These condensed consolidated interim financial information have been prepared in accordance with IAS 34 "Interim Financial Reporting". They do not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the annual consolidated financial statements as at and for the year ended 31 December 2020, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

#### b) Basis of measurement

The condensed consolidated interim financial information has been prepared on the historical cost basis except for the following which are measured at fair value:

- i) available for sale investments ("AFS"); and
- ii) financial assets at fair value through profit or loss ("FVTPL").

Notes to the condensed consolidated interim financial information (continued)

#### 2 Basis of preparation (continued)

#### c) Functional and presentation currency

These condensed consolidated interim financial information are presented in U.A.E. Dirhams ("AED") rounded to the nearest thousand, since that is the currency in which the majority of the Group's transactions are denominated.

#### d) Use of estimates and judgments

The preparation of condensed consolidated interim financial information in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

In preparing these condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and estimation of key sources of uncertainty were the same as those that applied to the audited annual consolidated financial statements as at and for the year ended 31 December 2020.

#### e) Impact of COVID-19

On 11 March 2020, the World Health Organization ("WHO") officially declared COVID-19 a global pandemic. In light of the rapid spread of COVID-19 across the globe, various economies and sectors have faced significant disruptions and uncertainty and governments and authorities have instigated a host of measures to contain the spread of the virus.

This note outlines the steps taken by the Group to estimate the impact of COVID-19 and the judgements applied by management in assessing the values of assets and liabilities as at 30 September 2021.

#### Insurance risk

In its underwriting segment, the Group is primarily exposed to medical and business interruption policies. The Health Authority in Dubai has instructed all insurers to accept medical claims related to COVID-19 irrespective of cover terms and conditions. The Group anticipates that the impact of medical claims would be immaterial due to low rate of hospitalisation and deferral of elective medical procedures required.

With regards to Business Interruption (BI) policies, the Group has in place pandemic and infectious disease policy exclusions as well. The Group has evaluated all business interruption policies in force for which the Group may have to incur claim payouts. As a result of initial examination of the policies, the Group has determined that these will not have a material impact in relation to the net claims paid due to lower retention levels of the Group and specific policy exclusions. Furthermore, the Group has been able to retain major customers during the period and has generally witnessed renewals and new business across major lines of businesses.

#### Credit risk

The Group has robust governance in place to ensure the appropriateness of provision against doubtful insurance balance receivables and the resultant estimates are being reviewed continuously by the management.

#### Liquidity risk management

In response to the COVID-19 outbreak, the Group continues to monitor and respond to all liquidity requirements that are presented. The Group continues to calibrate stress testing scenarios to current market conditions in order to assess the impact on the Group in the current extreme stress. As at the reporting date the liquidity position of the Group remains strong and is well placed to absorb and manage the impacts of this disruption.

Notes to the condensed consolidated interim financial information (continued)

#### 3 Significant accounting policies

The Group has consistently applied the accounting policies as applied by the Group in the annual consolidated financial statements for the year ended 31 December 2020.

# 4 Financial risk management

Aspects of the Group's financial risk management objectives and policies are consistent with those disclosed in the annual audited consolidated financial statements for the year ended 31 December 2020.

#### 5 Interim measurement

The nature of the Group's business is such that income and expense are incurred in a manner, which is not materially impacted by any form of seasonality. These condensed consolidated interim financial information were prepared based upon an accrual concept, which requires income and expense to be recorded as earned or incurred and not as received or paid throughout the period. However, the results may not represent a proportionate share of the annual profits due to variability in contributions and investment income and uncertainty of claims occurrences.

#### 6 Investment in an associate

On 16 March 2021, the Group's equity interest in its associate, Orient UNB Takaful PJSC ("Orient UNB"), increased from 35% to 84% and accordingly Orient UNB became a subsidiary from that date (see note 20). Orient UNB is a public shareholding company registered and incorporated in UAE. Orient UNB commenced its commercial operations in 2017. The principal activity of Orient UNB is issuance of short term takaful contracts in connection with accidents and liabilities insurance, fire insurance, transportation risk insurance, other type of insurance and health insurance. It also invests its funds in deposits.

#### b) Contingent liabilities

At 30 September 2021, guarantees, other than those relating to claims for which provisions are held, amounting to AED 46,894 thousand (31 December 2020: AED 76,230 thousand) had been issued on behalf of the Group by its banker in the ordinary course of business.

#### 19 Fair value of financial instruments

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

#### 20 Acquisition of subsidiary

On 16 March 2021, the Group acquired an additional 49% of the shares and voting interests in Orient UNB Takaful PJSC ("Orient UNB"). As a result, the Group's equity interest in Orient UNB increased from 35% to 84%, obtaining control of Orient UNB.

From the date of acquisition, Orient UNB contributed gross written premium of AED 241,998 thousand and profit after tax of AED 10,709 thousand to the Group's results. If the acquisition had occurred on 1 January 2021, management estimates that consolidated gross written premium would have been AED 3,895 million, and consolidated profit after tax for the period would have been AED 401 million. In determining these amounts, management has assumed that the fair value adjustments, determined provisionally, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 January 2021.

#### i Purchase consideration

The purchase consideration (also referred to as "purchase price") of the acquisition has been allocated to the assets acquired and liabilities assumed using their preliminary fair values at the acquisition date. The computation of the purchase consideration and its allocation to the net assets of Orient UNB – based on their respective fair values as of 16 March 2021 is presented below. The allocation of the purchase price may be modified within a period of twelve months from the date of business combination, as more information is obtained about the fair value of assets acquired and liabilities assumed.

Against the acquisition of additional equity share, the Group has transferred cash consideration amounting to AED 77,170 thousand.

#### ii Identifiable assets acquired and liabilities assumed

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition.

	(Un-audited)

Retirement benefit obligation	(1,195)
Lease liabilities	(3,395)
Reinsurance and other payables	(178,315)
	194,286
	<del></del>

Insurance balance receivable comprises gross contractual amounts due of AED 143,043 thousand, of which AED 1,300 thousand was expected to be uncollected at the date of acquisition.

The Group is in the process of undertaking comprehensive purchase price allocation which is expected to complete within twelve months from the date of business combinations. This may result in different values being attributed to the assets, liabilities and contingent liabilities acquired, and hence, change in the accounting for the acquisition.
